

Year 3 - Summer 1

Changes in my Local Area

English

We will use Persuasion to create an: Information board about rivers.

History

We will find out why different places can change over time and understand how Longsight has changed and why.

ICT

We will use software to analyse, record and present information and create databases.

Maths

We will be working with Length, Mass and Volume to solve problems practically and using written calculations.

Science

We will name light sources and find out how shadows are formed. We will measure, investigate and explore materials and their transparency to light.

MFL

In Spanish we will learn the names of different fruits and vegetables and use our numbers to count them.

PE

We will be learning to swim and we will be working on symmetry and asymmetry in gymnastics.

Art

We will explore features of sculptures and learn how to shape and mould clay.

RE

In RE, we will be finding out about why people of different religions pray.

PSHRE

In PSHRE, we will be finding out about risk and learning how to respond in an emergency.
