Year 3 Autumn 2
The Stone Age

ART

We will be creating still life drawings of stone age artefacts and tools using shading and toning to create depth.

RE

We will learn why are festivals important to religious communities?

(Christmas, Diwali)

SCIENCE

We will identify that humans and some other animals have skeletons and muscles for support, protection and movement.

ICT

We will be programming and creating sequences in a block-based language to make music.

PE

We will be using different moments to create routines in both gymnastics and dance.

MATHS

We will be working with numbers up to one thousand, consolidating our knowledge about place value and investigate graphs.

MUSIC

We will take part in drumming workshops related to rhythm, pulse, dynamic range, playing in an ensemble and 2&3 part performances. We will also learn musical notation.

ENGLISH

We will plan, write and edit a narrative based on a modern fable using Year 3 features whilst finding out about paragraphs, conjunctions and inverted commas.

HISTORY

We will learn about how people lived in the Stone Age, and study artefacts that help us learn about what life was like during that period.
