

## Autumn Term 1 Explorers

### Literacy

We will begin by exploring phonics, letter formation and for our older friends sentence structure.

### Physical Development

Throughout the week there will be different activities designed to increase gross motor and fine motor control. Our weekly PE lesson will focus on running for the first half term.

### Understanding of the World

Through this we will be looking at the concept hot and cold. Identifying animals that might live within each habitat. We will look to create our own temperature control reaction.

### Maths

We will engage within our mastery of number activities and we will begin to understand the concept of one. We will then look to forming number sentences. Our older friends will be engaging in fractions and recognising half of shapes.

### Art

Through sensory exploration we will create art using our primary colours. Our older friends will look to use correct terminology and printing techniques.
