

# Spring 2

## Where in the World?

We are going to look at different cultures and things that make us similar and things that make us different. Looking into different foods, music and festivals.

## Where does food come from?

We will be looking at where certain foods come from and looking at how some foods are grown from plants and others come from animals.

## Innovate a Story

Using the structure of our familiar story we will aim to innovate the mini beast and where possible some of the food items.

## Maths

Communication Pathway 1: Exploring filling and emptying containers and recognising the language empty and full. Recognising full and empty from visual representation.

Communication Pathway 2: Looking into measurement and using measuring tools to recognise longer and shorter, bigger and smaller.
