# Part A: Pupil premium strategy plan

## Statement of intent

At St Thomas the Martyr our intention is that all pupils, irrespective of their background or the challenges they face, make good progress and achieve across all subject areas. The focus of our pupil premium strategy is to support pupils to achieve that goal, including progress for those who are already high achievers.

We aim to ensure progress is made through high quality teaching in all curriculum areas with the target to close the gap between disadvantaged pupils and their peers. High quality teaching will be supported by rigorous assessment and tracking that allows for targeted learning support, group interventions, and adapted lesson plans and teaching to engage the learners. Implicit in the intended outcomes detailed below, is the intention that non-disadvantaged pupils' attainment will be sustained and improved alongside progress for their disadvantaged peers. Staff work as a team with a shared vision to help every child achieve.

As a school we have a desire to ensure all children are happy, healthy, confident and independent. We have a strong focus on wellbeing across the school and want children to feel happy and safe in school. Relationships between staff and children allow us to work on areas in a child's life that may affect their personal development. We believe that children need to be ready to learn and challenges in their lives can affect this. We also aim to give all children a range of opportunities to develop their cultural capital, talents, skills, interests and everyday experiences.

Our approach will be responsive to common challenges and individual needs, developed from assessments and the understanding of the needs of our children rather than assumptions about the impact of disadvantage. The approaches we have adopted are integral to wider school plans including the school improvement plan, curriculum action plans and planned CPD. To ensure they are effective we will:

- challenge pupils in the work that they're set
- act early to intervene at the point need is identified
- adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' outcomes and raise expectations of what they can achieve
- develop strategies to improve children's independence and wellbeing

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

| Challenge number             | Detail of challenge                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                |                  |  |  |                         |               |  |  |                              |            |  |  |                  |                  |  |  |                         |                |  |  |                              |              |  |  |

| 1                            | <p>Assessments and observations show that many disadvantaged children are starting Nursery/Reception with poor self-help and independence skills. Many are also unable to recognise or respond to their name, sit for a period of more than 2-3 minutes or participate in fine motor skills activities. Children are entering school with limited school readiness, such as unable to put on a coat or shoes and we are seeing increasing amounts of children who are not toilet trained before starting school.</p> <p>PSED data shows many children entering Nursery and Reception below expected in PSED</p> <table><tr><td><b>Nursery</b></td><td><b>2025-2026</b></td><td></td><td></td></tr><tr><td>Below expected on entry</td><td>37.5%<br/>6/16</td><td></td><td></td></tr><tr><td>% PP children below on entry</td><td>60%<br/>3/5</td><td></td><td></td></tr></table><br><table><tr><td><b>Reception</b></td><td><b>2025-2026</b></td><td></td><td></td></tr><tr><td>Below expected on entry</td><td>68.4%<br/>13/19</td><td></td><td></td></tr><tr><td>% PP children below on entry</td><td>77.8%<br/>7/9</td><td></td><td></td></tr></table> <p>Following this, we will look to improve children’s school readiness when entering Nursery and Reception and ensuring they are ready for the transition into Year 1.</p> | <b>Nursery</b> | <b>2025-2026</b> |  |  | Below expected on entry | 37.5%<br>6/16 |  |  | % PP children below on entry | 60%<br>3/5 |  |  | <b>Reception</b> | <b>2025-2026</b> |  |  | Below expected on entry | 68.4%<br>13/19 |  |  | % PP children below on entry | 77.8%<br>7/9 |  |  |

| 2                            | <p>We have had an increase in SEN children in our school over the last few years and this is impacting the types of support we need to provide to many children. As well as curriculum based support, we are finding the increase in need for emotional and wellbeing support.</p> <p>We currently have 38 children on the SEN register and of these 15 are Pupil Premium children (39.47%). We expect this number to continue to rise.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                |                  |  |  |                         |               |  |  |                              |            |  |  |                  |                  |  |  |                         |                |  |  |                              |              |  |  |

|   | Following this, we will look to provide planned, meaningful interventions to increase children's ability to access lessons and have a positive attitude to learning.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                         |                  |
|   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | <b>2024-2025</b>        |                  |

| 4                                            | <p>We have a number of children who were persistently absent in 2024-2025 (36 children from N to Y6), with 17 eligible for Pupil Premium funding. These children have attendance that is below 90% and are at risk of falling behind academically and missing out on key social and emotional aspects of school life. As part of our Pupil Premium strategy, we are committed to improving attendance through a proactive, supportive approach. This includes close monitoring of attendance data, early identification of patterns, and intervention plans. We work in partnership with families to understand and address the root causes of absence, offer pastoral support, and ensure that school is seen as a safe, welcoming, and engaging place to be. By taking a child-centred and family-focused approach, we aim to reduce persistent absence and support every child in attending school regularly and reaching their full potential.</p> |           |           |           |                         |        |  |                                    |                       |  |                                              |                |  |

| Total persistently absent children           | 36 children (N to Y6)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |           |           |           |                         |        |  |                                    |                       |  |                                              |                |  |
| % of persistently absent children who are PP | 18/40<br>47.2%                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |           |           |           |                         |        |  |                                    |                       |  |                                              |                |  |
| 5                                            | <p>Many children in our school have limited access to a range of enriching outside experiences due to financial and social barriers. This lack of exposure can impact their language development, cultural capital, and overall confidence in new or unfamiliar settings.</p> <p>As part of our strategy, we aim to close this gap by providing funded opportunities for educational visits, extracurricular clubs, and enrichment activities that broaden horizons and support personal development. By increasing access to these experiences, we intend to inspire ambition, enhance learning, and build the confidence and social skills that children need to thrive both in and beyond the classroom.</p>                                                                                                                                                                                                                                        |           |           |           |                         |        |  |                                    |                       |  |                                              |                |  |

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

| Intended outcome                                                                                                                            | Success criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | 2025-2026 summary |
|---------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| <p>Improve children's school readiness when entering Nursery and Reception and ensuring they are ready for the transition into Year 1.</p>  | <ul style="list-style-type: none"> <li>Increased percentage of children meeting age-related expectations in the Prime Areas of Learning by the end of EYFS.</li> <li>Baseline assessments show improved levels of school readiness for children entering Reception and Year 1 compared to previous cohorts.</li> <li>Targeted support and early interventions are in place and show measurable impact on children's development.</li> <li>Children demonstrate growing independence, confidence, and resilience in daily routines and learning activities.</li> <li>Smooth and well-supported transitions are observed, with Reception children successfully settling into Year 1 routines and expectations.</li> <li>Parent/carer engagement in early learning improves, as evidenced by attendance at workshops, stay-and-play sessions, and home learning activities.</li> </ul> |                   |
| <p>Provide planned, meaningful interventions to increase children's ability to access lessons and have a positive attitude to learning.</p> | <ul style="list-style-type: none"> <li>Targeted pupils regularly attend planned interventions.</li> <li>Children will make at least 2 steps of progress across the school year (reading, writing and maths).</li> <li>Pupils demonstrate increased confidence and engagement in lessons, as observed by class teachers and support staff.</li> <li>Teachers report a reduction in learning barriers and improved ability of targeted pupils to access the curriculum with more independence.</li> <li>Reduced CPOMs incidents for SEN children.</li> </ul>                                                                                                                                                                                                                                                                                                                          |                   |
| <p>Improved SPaG attainment for disadvantaged pupils at the end of KS2.</p>                                                                 | <ul style="list-style-type: none"> <li>The percentage of disadvantaged pupils achieving the expected standard in SPaG (Spelling, Punctuation and Grammar) at the end of KS2 increases compared to the previous year (2025 – 64%)</li> <li>Targeted interventions show measurable progress in SPaG outcomes for disadvantaged pupils, as</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                   |

| <p>PE teacher to teach each year group PE lessons (2.5 days a week) and run 2 afterschool clubs a week.</p> <p>PE teacher to run 3 interventions a week for SEN children.</p> | <p>There are wider benefits from regular physical activity in terms of physical development, health and wellbeing as well as other potential benefits have been reported such as improved attendance.</p> <p>Pupils from disadvantaged backgrounds may be less likely to be able to benefit from sport clubs and other physical activities outside of school due to the associated financial costs. By providing physical activities free of charge, schools give pupils access to benefits and opportunities that might not otherwise be available to them.</p> <p>EEF Physical Activity</p>                                                                                                                                           | 2,5   |
| Employment of an additional level 3 TA to support the needs of PP children in the current Nursery class                                                                       | <p>Access to high quality teaching is the most important lever schools have to improve outcomes for their pupils. It is particularly important to ensure that when pupils are receiving support from a teaching assistant, this supplements teaching but does not reduce the amount of high-quality interactions they have with their classroom teacher both in and out-of-class. Research has shown that improving the nature and quality of TAs' talk to pupils can support the development of independent learning skills, which are associated with improved learning outcomes. TAs should, for example, be trained to avoid prioritising task completion and instead concentrate on helping pupils develop ownership of tasks.</p> | 1,2,4 |

### Targeted academic support (for example, tutoring, one-to-one support, structured interventions)

| Activity                                                                                          | Evidence that supports this approach                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Challenge number(s) addressed |

| Teaching Assistants are deployed where required to support the needs of certain classes/children. | <p>Strategic deployment of TAs is important to ensure priority pupils are supported. This will include ensuring TAs are fully prepared for their role and supplementing rather than replacing high-quality provision from the class teacher, including providing targeted interventions.</p> <p>Interventions can be an incredibly beneficial aspect of school life. Using a structured intervention, teachers can swiftly close progress or attainment gaps in a key area. They can also see the demonstrable impact of their practice, and share it with the child and their parents or carers.</p> <p>Effective Interventions in Education</p> | 1, 2, 3, 4                    |
| Targeted interventions and support during sessions are in place for children who are              | Interventions can lead to significant progress for pupils with SEN when they are:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | 2                             |

| <p>Developing parental engagement and knowledge across the school through events/advice/workshops.</p> <ul style="list-style-type: none"> <li>• Stay and play sessions</li> <li>• Developing a love of reading</li> <li>• Reading information sessions</li> <li>• Toileting support</li> <li>• SEN support groups</li> </ul> | <p>The Education Endowment Foundation (EEF) identifies parental engagement as a cost-effective approach with evidence of positive impact on pupil outcomes. Research indicates that effective parental engagement can, on average, lead to up to four months of additional progress per year, with strongest effects observed in early years and primary settings. The EEF emphasises that impact is maximised when schools move beyond generic encouragement and instead provide parents with clear, practical strategies to support learning at home, particularly in literacy and core subjects. Sustained and inclusive approaches, combined with tailored communication that reduces barriers to participation, are most effective in securing engagement from disadvantaged families.</p> <p>Education Endowment Foundation – Teaching and Learning Toolkit: Parental Engagement (average impact +4 months).</p> | 1,2,3,4 |
| <p>Picture News – weekly assembly and sessions reporting on current affairs directly linked to British Values. Year 6 plan and present Picture News assembly on a Friday afternoon.</p>                                                                                                                                      | <p>Picture News exposes children to a range of current issues including political, religious, cultural, environmental, social, moral, and spiritual. It makes British Values relevant and meaningful and develop links between personal, school and community values. Children are able to demonstrate respect and tolerance explaining how they should behave or what they should say.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | 5       |

## Part B: Review of the previous academic year

### Outcomes for disadvantaged pupils

2024-2025: This was the final year of our original Pupil Premium strategy. Below is an overview of the outcomes of the strategy.

***Challenge 1: Improved oral language skills and vocabulary among disadvantaged pupils. Achieved.***

| Nursery                      | 2022-2023 | 2023-2024 | 2024-2025 |
|------------------------------|-----------|-----------|-----------|
| Below expected on entry      | 54%       | 43%       | 43.75%    |
| % PP children below on entry | 80%       | 60%       | 37.5%     |

| Reception                    | 2022-2023 | 2023-2024 | 2024-2025 |
|------------------------------|-----------|-----------|-----------|
| Below expected on entry      | 42%       | 28%       | 32.1%     |
| % PP children below on entry | 100%      | 100%      | 45.5%     |

Children are entering Nursery/Reception with better oral language skills. It is thought that this is due to the interventions within the 2 Year Old Nursery and within the Nursery class. Staff have also been trained in key interventions to support skills.

***Challenge 2: Improved reading engagement and attainment among disadvantaged pupils. Achieved.***

KS2 reading outcomes in 2024/25 show that disadvantaged pupils have made progress in line with other children, and in some cases accelerated learning. The KS2 results also showed children achieving Greater Depth in Reading after the first year of the strategy, with 1 PP child achieving in 2023 increasing to 3 PP children in 2024 and 2025. 2023 had 11 children achieving Greater Depth and 2024 had 9.

Phonics screening results were over 96% for the 3 years that the strategy was in place.

Pupils with gaps in reading and comprehensions skills are identified and support is in place.

Children enjoy reading and have access to reading areas in school. They are using the library throughout the school day and accessing a range of books. Home reading is increasing.

**Challenge 3: *Improved maths attainment for disadvantaged pupils at the end of KS2. Achieved.***

KS2 Maths outcomes in 2024/25 show that disadvantaged pupils have made progress in line with other children, and in some cases accelerated learning. Children with gaps in key concepts, such as number bonds and times tables, to have been identified and support in place. New maths fluency scheme will also begin in 2025 as we continue to develop learning in Maths. The KS2 results also showed children achieving Greater Depth in Maths after the first year of the strategy.

**Challenge 4: *To achieve and sustain improved wellbeing for all pupils in our school, particularly our disadvantaged pupils. To provide opportunities for children to access a range of experiences. Achieved.***

Staff have a good understanding of ways in which children can be vulnerable online and complete CPD to teach online safety effectively. Governors have also completed this training. Children have a range of experiences within school and outside of school, through trips, online experiences and visitors. This target will continue as the challenge remains for many of our children.

**Challenge 5: *To achieve and sustain improved attendance for all pupils, particularly our disadvantaged pupils. Partially achieved.***

|                                 | 2021-2022 | 2022/2023 | 2023-2024 | 2024-2025 |
|---------------------------------|-----------|-----------|-----------|-----------|
| Whole school                    | 93.2%     | 93.45%    | 93.98%    | 94.56%    |
| % children below 95% who are PP | 40%       | 39.5%     | 36%       | 60%       |

Whole school attendance increased over the 3 years. However, PP children with attendance below 95% decreased from 40% in 2022 to 36% in 2024 but then increased to 60%. We have noticed that many of our persistent absences are PP children. Therefore, this will become a target for our next strategy.

2025-2026:

*Outline the performance of your disadvantaged pupils in the previous academic year and explain how it has been assessed. You should draw on:*

- *Data from the previous academic year's national assessments and qualifications, once published.*
- *Comparison to local and national averages and outcomes achieved by your school's non-disadvantaged pupils (a note of caution can be added to signal that pupils included in the performance data will have experienced some disruption due to Covid-19 earlier in their schooling, which will have affected individual pupils and schools differently).*
- *Information from summative and formative assessments the school has undertaken.*
- *School data and observations used to assess wider issues impacting disadvantaged pupils' performance, including attendance, behaviour and wellbeing*

*You should state whether you are on target to achieve the outcomes of your strategy (as outlined in the Intended Outcomes section above) and outline your analysis of what aspects of your strategy are/are not working well.*

## Externally provided programmes

*Please include the names of any non-DfE programmes that you used your pupil premium to fund in the previous academic year.*

| Programme             | Provider              |
|-----------------------|-----------------------|
| Phonics Play          | Phonics Play          |
| Confident Me          | Confident Me          |
| Picture News          | Picture News          |
| Compass Bloom         | Lancashire NHS        |
| 6 Bricks              | Lego Therapy          |
| Times Table Rockstars | Times Table Rockstars |
| Confident Mini        | Confident Me          |

## Service pupil premium funding (optional)

| How our service pupil premium allocation was spent last academic year                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Children were supported by staff during periods of transition, both at home and at school. Many of the children required support in the beginning of the year to settle into the new class. Sessions with professionals were organised if required.</p> <p>Transition books were created and time spent with children to discuss their feelings when required. We identified gaps in service children's education which we addressed with targeted support. Visuals have also been created to support children during the day.</p> <p>Staff have been provided with time to create social stories.</p> <p>Children who have been identified as have SEN have been provided with support and resources linked to this.</p> |
| The impact of that spending on service pupil premium eligible pupils                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <p>Teachers observed improvements in wellbeing amongst service children. Assessments demonstrated progress in areas where extra support classes were provided.</p> <p>Children are engaging in the school day well and often take part in extra-curricular activities.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

## Further information

### **Additional activity**

Our pupil premium strategy will be supplemented by additional activity that is not being funded by pupil premium or recovery premium. That will include:

- Embedding more effective practice around feedback. EEF evidence demonstrates this has significant benefits for pupils, particularly disadvantaged pupils.
- Offering a wide range of high-quality extracurricular activities to boost wellbeing, behaviour, attendance, and aspiration. Activities will focus on building life skills such as confidence, resilience, and socialising. Disadvantaged pupils will be encouraged and supported to participate.
- Ensuring the wellbeing of staff through half termly supervision sessions and support through Compass Bloom and other professionals.

### **Planning, implementation, and evaluation**

In planning our new pupil premium strategy, we evaluated why activity undertaken in previous years had not had the degree of impact that we had expected.

We have formed a focus group with Pupil Premium Leads from schools nearby and aim to work together to develop our strategies and implement them effectively.

We looked at a number of reports, studies and research papers about effective use of pupil premium, the impact of disadvantage on education outcomes and how to address challenges to learning presented by socio-economic disadvantage.

We used the EEF's guidance to help us develop our strategy and work out which activities and approaches are likely to work in our school. Monitoring takes place through provision maps and progress meetings with teachers and this will continue.

We will evaluate the strategy each year for the duration of our three-year approach and will adjust our plan over time to secure better outcomes for pupils.
