

## English

### The Crows Tale - Traditional tale

The children will read a traditional tale about how a crow became black before writing their own story in the same style.

## Maths

### Spring term

Money

Multiplication & Division

Length & Height

Mass, capacity & temperature

## Computing

This unit introduces the learners to the term 'data'. Learners will begin to understand what data means and how this can be collected in the form of a tally chart. They will learn the term 'attribute' and use this to help them organise data. They will then progress onto presenting data in the form of pictograms and finally block diagrams. Learners will use the data presented to answer questions.

## Science

### Living things and their habitats

In this unit children will investigate the different habitats in the UK and be able to identify animals and plants that can be found there. They will be able to explain if something is living, no longer living or never been alive.

They will also look at some global habitats and ways in which the animals and plants found there are suited to that habitat.

## Anderton Primary School

### Spring term

### Year 2

### We Create

## RE

### How do we know some people feel a special connection to a god?

Exploring how we know that some people are believed to have a special connection to God through looking for clues in religious stories.

## PE

**Gymnastics** - Children will be able to perform a series of rolls, balances and ways of travelling before putting together a sequence which incorporates these. The children will also look at the mechanics of movements like jumping and landing.

**Net & Wall games** - Be able to perform a side gallop, return a ball by striking it when thrown to them and strike a dropped ball with some consistency.

## Art

### LS Lowry

In this unit the children will learn about the artist Lowry, how to colour mix and recreate a collaged painting in his style.

## PSHE

### Living in the wider world

- how jobs help people earn money to pay for things they need and want
- about a range of different jobs, including those done by people they know or people who work in their community
- how people have different strengths and interests that enable them to do different jobs

## Geography

### Mexico

Children will explore the world using atlases and globes, identifying the seven continents, five oceans, the countries, capital cities, and surrounding seas of the United Kingdom. They will develop fieldwork skills by creating simple maps and describing key local features. Children will also study the human and physical geography of Tulum, Mexico, and compare it with their local area.
