

Creating an Earthquake Survival Kit

- 12 Something we can say for sure about nature is that it is
- 20 unpredictable. We can't always tell when an earthquake
- 28 will occur. Earthquakes are known to cause widespread
- 38 chaos and confusion but having the right supplies at your
- 44 fingertips can make all the difference.
- 53 By creating an earthquake survival kit, you and your
- 63 family can prepare yourselves in case such an event occurs.
- 72 A well-stocked kit that is stored in an easy-to-reach
- 79 location should prove invaluable during those critical
- 90 hours or days after a catastrophic event. Here is a basic
- 98 collection of supplies in case of an emergency:

Questions

1. The text says that nature is **unpredictable**. What does 'unpredictable' mean?

2. Why is it important to have the right supplies at **your fingertips** if an earthquake strikes?

3. How much food should you pack?

4. What is the most important message in this text?
