

South Grove Primary School

Half -Termly Homework Project.

Class: 2S

Due: 17th October 2025

Dear Parents and Carers,

Please support your child in completing the project below.

The children will be rewarded for completed projects. If you have any questions, please ask your child's class teacher.

We can not wait to see some amazing home learning!

This half-term, we are learning about Habitats in Science. Research your favorite animal and what habitat you would find it in, then use this knowledge to design your very own small world habitat. This can be designed in any way you see fit, ranging from a detailed drawing to 3d crafting. You can use recyclable materials for your project and your habitats can be made using junk modelling, such as unwanted shoebox or finished egg box. All of your wonderful creations will be put together in a school wide exhibition, so please bring your wow factor to these creations!
