

South Grove Primary School  
Half-Termlly Homework Project.

Class: 4M

Due: Friday 13th February 2026

Dear Parents and Carers,

Please support your child in completing the project below.

The children will be rewarded for completed projects. If you have any questions, please ask your child's class teacher.

We can not wait to see some amazing home learning!

This half term's project will focus on our Geography unit: Coasts.

The work can take whatever form the children like.

They can research interesting facts about different countries that have a coastline, make an infographic about the length of coastlines in different countries, investigate which animals, birds and marine creatures life on or by different coasts, or write about their own and their family's experiences of being on a coast. They can be as creative as they like!
