Science KS1 Spring Year B

Animals- Humans- Basic Structure and Senses.

What is this topic about? This topic is all about learning the basic parts of the human body and which part of the body is associated with each sense. The children will learn that humans are animals. We will compare and describe the differences in our own features and recognise that humans have many similarities.

I will show my scientific skills by…

- **Compare and contrast** animals (humans) at first hand or through videos and photographs.
- **Using my senses** to **compare** different textures, sounds and smells.

At the end of the Topic I will know…

- The basic parts of the human body and which part of the body is associated with each sense.
- The five senses.
- The similarities and differences between humans.

KEY VOCABULARY

Body Parts	Senses
head, neck	sight
knees, arms, legs	smell- scent
eyes, ears, mouth	taste
nose, fingers, toes	touch- feel
elbows, face, teeth	hear- sound
